

# Hunter Valley ZOO

Come have a fun and educational day out of the classroom with us here at Hunter Valley Zoo.

Our program has a hands on approach to it to keep the kids interested and the educational learning fun.

If you decide to come and have a guided tour around the park you will get to see some of our local residents up close and personal. There will be three time spots available on the day. Depending on the time of day you arrive and how many groups we have in the program may alter a little but your day would look like this;

🐾 Your educational officer will meet you and take you to your assigned area for the day

🐾 They would then reinforce the zoo's rules and feed bags rules (if required) and leave for 15 minutes while the children had some morning tea

🐾 Once the program starts it will go for approximately one hour first up while children still sitting down they get a hands on experience with a meet and greet the animals

🐾 Then a guided tour with show our Malayan Tapir

🐾 Then escorted back to assigned area to end the program with a Koala talk and patting

🐾 A to finish it up a White Lion talk, who wouldn't want to finish on that note!

Please note if there is more than one school group in, it will be a combined lion talk with all the schools there if there isn't too many children.

Once this is finished the educational officer will hand the children back to the hands of the teachers for you to finish the day how you please.

We look forward to seeing you soon!
